

The 2nd KAST-Lincei Bilateral Symposium

December 6, 2016 / Korea Institute for Advanced Studies

Program

Time	Contents
09:20 – 9:40	Registration
Opening Ceremony	
	Moderator: DoHan Kim (Natural Sciences Division Chair, KAST)
09:40 – 09:50	Photo Session
09:50 – 10:00	Opening Remarks Myung-Chul Lee (President, KAST) Fabrizio Catanese (Accademia Nazionale dei Lincei)
Session 1	
	Chair: JongHae Keum (KAST Fellow, Korea Institute for Advanced Study)
10:00 – 10:50	Severi Varieties of Nodal Curves on Surfaces Prof. Ciro Ciliberto (Univeristy of Rome)
11:00 – 11:40	Generalization of Thurston's Double Limit Theorem Inkang Kim (Korea Institute for Advanced Study)
11:50 – 12:30	New Holomorphic Fillings in Contact Geometry Daniele Zuddas (Korea Institute for Advanced Study)
12:30 – 14:00	Lunch
Session 2	
	Chair: Jun-Muk Hwang (KAST Fellow, Seoul National Univ.)
14:00 – 14:50	Moduli Spaces, Rigid Manifolds, Projective Classifying Spaces and Inoue Type Varieties Fabrizio Catanese (University of Bayreuth)
15:00 – 15:40	Normal Surface Singularities Admitting C^* -action and their Partial Resolutions Dongsoo Shin (Chungnam National University)
15:40 – 16:00	Coffee Break
Session 3	
	Chair: JongIl Park (KAST Fellow, Korea Institute for Advanced Study)
16:00 – 16:40	Disk Embedding in Dimension Four Jae Choon Cha (POSTECH)
16:50 – 17:30	Introduction to Minimal Surfaces Theory Filippo Morabito (KAIST)
17:40 – 18:20	Cascades of Log del Pezzo Surfaces of Picard Number One DongSeon Hwang (Ajou University)
19:00	Dinner
